KS SWIVELS™

ROTATION. EFFORTLESS. DURABLE.

KS Swivels by Kintec Solution, is specifically designed and engineered to incorporate a rotational spin to any Kintec Solution's single chair applications. The unrestricted 360-degree rotational spin is not only effortless, it is also quiet when in operation. Additional sizes, finishes and functionality options are available based on minimum quantity order.

Key Features & Benefits

Available for All Kintec single chair seating solutions.

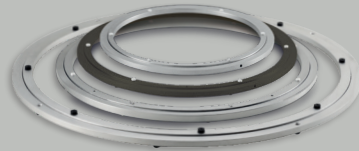

Function 360-degree rotation spin.

Operation Manual operation.

Installation Attached to the seat column.

KS Swivels unique features:

- Full continuous 360-degree rotation.
- Made from strong, resilient aluminium.
- Standard or custom size availability.
- Easy to install.
- Black powder-coated finish available in two sizes 506 mm and 600 mm.
